

Saving America's Horses – A Nation Betrayed

Stand With Us for the Horses!

The fight to end horse slaughter has gone on for well over a decade in the U.S. with protective legislation introduced each congressional session; only to be later squelched as a result of the powerful lobby that is pushing to reopen horse slaughter plants in America. In order to effect change, we have combined the compelling truth backed by documented evidence into the world's most powerful visual resource, cinema.

"**Saving America's Horses - A Nation Betrayed**" is the lifesaving documentary film that can change everything for our horses. Plans are being put into action to bring this extremely powerful film resource to the policymakers and to the public at large with distribution targeted for 2012.

Individuals, businesses, groups and organizations are urged to help the horses. You can take an active role to protect the horses through "Saving America's Horses" and also gain wide exposure for your efforts.
