

FOR IMMEDIATE RELEASE
WFLF Humanion Films
DEC 4, 2009
LOS ANGELES, CA

WFLF Humanion Films and American's Against Horse Slaughter team up to call on all Americans to help end the slaughter of all equines, both wild and domestic.

In a joint effort, both organizations are calling on all Americans to lend their voice to the CAUSE. Please help pass The Prevention of Equine Cruelty Act HR503 and S727 and to increase awareness of the brutal practice of slaughtering American horses.

The legislation is pending in both the house and the senate and will prohibit the slaughter of American horses for human consumption, and end the transport of our American horses to Mexico and Canada for slaughter.

PLEASE TAKE ACTION

Please take a minute to see if your U.S. Representative is already a cosponsor of H.R. 503 and if your two U.S. Senators are co sponsors of S727. If your Representatives and Senators are not yet cosponsors, please make a call and ask them to cosponsor the Prevention of Equine Cruelty Act.

To reach your federal legislators, please call the Capitol switchboard at **202-224-3121**, or for your convenience you may call this toll-free number **800-828-0498** and ask for a legislator by name.
