

## CALL TO ACTION

Wild for Life Foundation encourages Americans to rise up and make contact with their US representatives in support of **HR 503, S727, HR 305** and **HR 1018**. Horse enthusiasts are urged to thank their representatives that currently support these bills and to also call those policy makers that haven't yet stepped up to support this important legislation. Your calls and emails are paramount in order to overcome powerful pro slaughter lobbyists that will otherwise persuade our policy makers to oppose this important legislation. The future of America's horses is at stake.

“We are their voice and they need to be heard.” –*Katia Louise*

The following legislators have not yet stepped up to support **The Prevention of Equine Cruelty Act, H.R. 503**.
