FOR IMMEDIATE RELEASE
Feb 19, 2010

Dr. Elliot Katz of In Defense of Animals joins WFLF Humanion Film's efforts as an Honorary Board Member in Saving America's Horses - A Nation Betrayed.

Dr. Elliot Katz, graduate of Cornell Veterinary School, founded In Defense of Animals (IDA) in 1983. "In Defense of Animals' objectives are to stop the round ups, keep the horses on their home range, end the senseless killing of all equines and do all in our power to return the rounded-up horses to the home range where they truly belong." – Dr Elliot Katz. Over the past 25 years, under Dr. Katz's leadership, IDA has been at the forefront of the struggle for animal protection and rights, and has won many precedent-setting victories for the animals. Some of these accomplishments include Closing the infamous Coulston Foundation, once the largest chimpanzee research center in the world, saving hundreds of chimpanzees and monkeys from the horrors of vivisection; spearheading the rescue of hundreds of dogs and cats after a devastating "firestorm" swept through the Oakland/Berkeley hills,

destroying more than 3,500 homes; preventing the US Army from breaking the legs of 120 retired racing greyhounds; Freeing 180 beagles scheduled to be dissected by UC Davis veterinary students; saving the lives of hundreds of Catalina Island buffalo scheduled to be sent to auction and arranging and paying for their transfer to a South Dakota Reservation; and ending NYU's crack cocaine experiments on monkeys, Rockefeller University's vomiting experiments on cats, and Michael Beren's brain cancer experiments on Beagle puppies.
