"It offends me that horses are being slaughtered. **SAVING AMERICA'S HORSES - A NATION BETRAYED** presents the hard truth and must be seen. Michael Blake, Writer DANCE WITH WOLVES, Horse Advocate, American West: "To view Saving America's Horses is essential for stopping the killing. Since the American Government came about it has destroyed Indians, Buffalo and Wolves, and for the last several decades horses are being butchered. No individuals or organizations have been able to stop the removal of what has been put on earth. If the public stands up it can be done. "Saving America's Horses-A Nation Betrayed brings to surface a topic which nobody wants to talk about in a way that **everyone will want to see.**" –Kate Dudley

SAVING AMERICA'S HORSES - A NATION BETRAYED is a compelling compilation of expert testimony, undercover footage and true life stories shot against the dramatic backdrops of America's beautiful countryside. The film depicts a country divided and inspires great hope for the protection of all horses and burros from cruelty.

"The cruelty of equine slaughter recognizes no borders. Over half of the horses slaughtered in Canadian plants originate in the United States. In this predatory industry there is no guarantee of humane treatment at the receiving end where profit, not animal welfare, is the driving force." - CHDC
