The film is a compelling compilation of expert testimony, undercover footage and true life stories shot against the dramatic backdrops of America’s beautiful countryside. “A Nation Betrayed” depicts a country divided and inspires great hope for the protection of all horses and burros from cruelty. Directed and produced by Katia Louise, this feature length documentary examines the arguments made by both the proponents and opponents of horse slaughter as related to both domestic and wild equines. The film also explores environmental issues and the lethal health risks associated with the consumption of America’s horses by people.
