

Saving America's Horses - A Nation Betrayed

WFLF Humanion Films
Los Angeles, CA
FOR IMMEDIATE RELEASE
March 28, 2010

MUSICIANS DONATE PROCEEDS OF SONG TO HELP BAN HORSE SLAUGHTER

WAMI award winning vocalist Ronnie Nyles and WAMI Nominee songwriter/producer, Debra Lopez donate proceeds from their song **“Racing For Time”**, in support of **“Saving America's Horses”**.

“Racing For Time”, tells the story of a racehorse who loses his best friend to slaughter only because he couldn't run fast enough to win races. He quickly realized with fear that he also may be running for his life.

Each year hundreds of thousands of young, healthy American horses are slaughtered and their meat is sent overseas for human consumption when they are no longer considered useful.

American horses continue to be transported across our borders to Mexico and Canada for slaughter even though the last three remaining horse slaughter plants in the U.S. have been shut down.

“Racing For Time” is available via download at www.racingfortime.org and www.savingamericashorse.org for .99 cents with all proceeds being donated in support of this CAUSE.

Whether retiring from a career due to injury, or if for some other reason a horse doesn't measure up, many horses wind up in the slaughter pipeline. **“Saving America's Horses, A Nation Betrayed”** is a feature length documentary film exposing the truth about one of America's dirtiest little secrets. This film features expert testimony and colorful anecdotes by some of the nation's top equine rescue organizations, trainers, veterinarians, pro horse advocates, celebrities and more. It's a CAUSE driven film for the Protection of All Equines from Slaughter. WFLF also supports safe refuge for Thoroughbreds that have been discarded upon the completion of their careers in the race industry. Lifetime Equine Refuge is a sponsored project under WFLF that provides protection from slaughter for all equine breeds through rescue, adoption and rehab programs.

Whether you want to save one horse at a time or you want to end horse slaughter for good, you can help save all American equines from this horrific fate with a meaningful donation!

Humanion Films is a program under Wild for Life Foundation (WFLF), a tax exempt 501 (c) 3 volunteer-based nonprofit corporation. [Donations](#) can be made directly to **“Wild for Life Foundation”** and are fully tax-deductible.

We rely on the generous [donations](#) made by our supporters. Every penny that comes into WFLF goes to save America's horse from slaughter. No amount is too small to help save the lives of these majestic sentient beings.
