

A Promise of Freedom for America's Horses

Dear Friends,

The nation's anniversary is once again upon us; a time to celebrate and a time to reflect. We hope that you'll take a moment to remember America's horses for whom our own freedom may not have been possible.

The freedom of America's wild horses from a life of torment and cruelty may only come through a violent and barbaric death. Right now, thousands of America's horses—including show horses, racehorses, wild horses, companion horses, and others—are suffering on U.S. soil; hundreds of wild horses stampeded down lava fields by helicopter, all breeds stockpiled into feedlots, and crammed into double-deck cattle trailers for days on end, in record high temperatures without water, food or rest. Their days are spent in agony and some won't even survive this final journey as they cross federal borders to be butchered alive for wealthy dinner plates abroad.

Even if you've already pledged to stop the round ups and ban the slaughter, these animals need your help today. [Please support WFLF's work to put an end to the insidious horse slaughter trade and our work to preserve and protect wild horses right now.](#)

Horses have helped to bring freedom to the people of this country. [Please help us stand up for America's wild horses who are brutality removed from their rightful range lands using tax payer dollars. Help us put an end to the barbaric slaughter of America's horses for human consumption.](#) Polls show that over 70% of the American people who know what's happening to them are against these activities.

“**Saving America's Horses**”, a cause driven film just started the festival circuit, and has already won multiple awards including **BEST OF FESTIVAL** at its first showing in Los Angeles and is getting rave reviews but... the slaughter of our American Horses may never end unless our horses are able to tell their story.

Wild for Life Foundation is dedicated to saving, protecting and preserving these majestic animals who are being abused and killed against the wishes of the American people. Thousands of horses are exported every year to Canada and Mexico to be slaughtered for their meat, but "Saving America's Horses" is the life saving film that can change all that for our American horses. Horses been there for us when we needed them most and it's time for Americans that care about these animals to help in [Defending Their Freedom and Saving Their Lives](#)

[Help us help them with the promise of freedom for our American horses. Your gift today will support these and all our efforts to end equine suffering and abuse.](#)

Thank you for all that you do toward raising compassion for these and all animals. Our successful work would not be possible without the benevolence of people like you.

Warmest regards,

Katia Louise
Wild for Life Foundation
Saving America's Horses

P.S. Please remember to help these horses and burros who are suffering all over the country this 4th of July, especially those being killed in the brutal slaughter pipeline. Please help us tell the world that America's horses are not food [by donating online right now!](#)
