(Los Angeles, CA, August 26, 2011) **“Saving America’s Horses” to launch in Canada!**

Wild for Life Foundation is proud to announce the launching of the acclaimed film, “Saving America’s Horses – A Nation Betrayed” in Canada. Founder of CHDC and Advisory Board Member to “Saving America’s Horses”, Sinikka Crosland underscores the importance of bringing this film from the U.S. to Canada because the problems exist on both sides of the federal border.

[Launching the film in Canada costs money and donations are needed to help cover expenses](#) like festival and screening fees, travel, and lodging.
