WFL Humanion Films Partners with EcoFlix & UnchainedTV for the 2022 Roll-Out of SAVING AMERICA'S HORSES

WFL Humanion Films begins its **2022 Roll-Out Friday, December 16th** of **SAVING AMERICA'S HORSES A NATION BETRAYED**, the international award winning feature film, on three worldwide streaming platforms to highlight the escalated plight of horses & burros in America. The documentary, written, produced, and directed by filmmaker **Katia Louise**, spotlights how the U.S. Bureau of Land Management's (BLM) so called adoption program has paved the way for countless wild horses & burros to be funneled off to slaughter, and how the BLM continues to wage war on America's wild mustangs through conflicting livestock, corporate and mining interests, "The really shocking fact is... the problem has only gotten worse over the past decade," says UnchainedTV founder **Jane Velez-Mitchell**.

"We can't bring back those who are gone, but we can prevent the suffering & killing of future generations by raising awareness and telling their story. Please join me and Saving America's Horses by giving our horses & burros the voice they need. Learn more and share information about **Saving America's Horses**, the landmark documentary by going to www.savingamericashorses.org" - **Morgan Fairchild**

The film also exposes the sordid industry that sends horses on long and cruel trips across U.S. federal borders to foreign slaughterhouses where they languish and die horrific deaths. "This exposé shows how the public has been misled by government agencies and corporate interests that twist the laws that are supposed to protect the horses, the people and the environment," adds filmmaker **Katia Louise**. Celebrity appearances include **Ken Wahl, Paul Sorvino, Linda Grey, Willie Nelson**, and others that speak up for these innocent, majestic animals who cannot speak for themselves.

WFL Humanion Films is honored and thrilled to announce its new partnership with **EcoFlix**, the worldwide streaming platform that performs a crucially active role in saving animals and stabilizing the planet. The worldwide roll-out begins Dec 16th on **EcoFlix**, where 100% of the member/subscription fees will be donated to **SAVING AMERICA'S HORSES** when subscribers choose the **Wild For Life Foundation** as their favorite **EcoFlix Partner Friend**.
